NOTICE OF ALLOWANCE

1. It is in the opinion of the examiner that the art of record neither anticipates nor renders obvious "drawing said circular plate into a cup-shaped embryo body by a deep drawing die, said cup-shaped embryo body having a first end being shaped into a cup-shaped cylinder and a second end being shaped into a embryo expansion part with a diameter greater then the diameter of said cup-shaped cylinder" in combination with the rest of the claimed limitations set forth in the independent claim.

2. Further searching by the examiner yielded additional prior art as follows:

Based on applicant's arguments and the examiner's review of the Office Action of January 18, 2006, the claimed subject matter is deemed to be allowable. Further explanation can be reviewed in the applicant's arguments filed on April 7, 2006.

3. However the above prior art fails to disclose a reasonable combination of "drawing said circular plate into a cup-shaped embryo body by a deep drawing die, said cup-shaped embryo body having a first end being shaped into a cup-shaped cylinder and a second end being shaped into a embryo expansion part with a diameter greater then the diameter of said cup-shaped cylinder." Therefore, it is concluded by the examiner that claims 3-4 of the present invention are allowable.

Art Unit: 3725

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
